Banana Charlotte. Soak one-third of a package of granulated gelatin in one-third of a cupful of cold water. Peel four bananas and rub or press through a sieve into a double boiler. Stand over the fire and when very hot add one cupful of sugar and stir until the latter is dissolved, add the gelatin and stir until it is dissolved, then take from the fire and add the juice of a lemon or an orange and four tablespoonfuls of water. HEART and HOME TALKS Confessions of a Young Housekeeper by Barbara Boyd

Up-to-Date Dishwashing.

I NEVER did believe in doing things in traditional ways if there is nothing but tradition to recommend the method. That's the reason I quarrel with present methods of dishwashing. Of course, the real up-to-date way of washing dishes is to use a dishwashing machine. But there doesn't seem to be any dishwashing machines for small families. They have them for hotels, and the quick, clean way the million or so dishes are washed is a joy. It makes a housekeeper just long to own such a housekeeping help.

But there is no use in crying for the moon, so I am trying to solve in some other way the dishwashing problem. My method, I know, will not suit all housekeepers. It might not work in large families. But it certainly is quite satisfactory in mine.

Every morning I have a grand dishwashing festa, and then I do not wash dishes any more that day. My luncheon and dinner dishes, with the exception of the silver, I clean carefully of all scraps, and then put to soak in a small tub. I cover this tub so that it does not look unsightly, and then the dishes wait their washing until next morning. Then I don my rubber gloves and there is a grand "clarin' up," as the old Southern mammy calls it.

There are lots of good, solid reasons in favor of this method, I think, and only tradition against it. Instead of handling all the paraphernalia of dishwashing three times a day I do it once. The dishes and pots and pans are easily washed after they have soaked overnight. I do not wash dishes when I have on my pretty afternoon dress and thus run the risk of spotting it. My husband and I have more time together after dinner, instead of shortening our too short evenings.

I can see fastidious housekeepers raising their hands to heaven. But the dishes are just as clean, and that is what dishes are washed for, isn't it? Clothes are not washed every day. Why should dishes be, if they are not left around in an unsightly condition, and if all food is disposed of so as not to attract roaches or mice? It may not be the best way to solve the dishwashing problem, but to me it is an improvement on the three-times-a-day ordeal. Just because dishes have always been washed three times a day doesn't signify to me that they should continue to be washed three times a day until the end of time. If an improvement is possible I am ready for it.

MEETING OF THE LICKING COUNTY DEMOCRATIC CLUB

The regular monthly meeting of the Licking County Democratic Club will be held at the club room on Friday evening, February 3. All members are urged to be present.

Poor Eugene Hale, one of the victims of the rising Democratic tide, mourns that if Canada and tariff should go into operation, the tariff work will be under a single stroke. The thought and it ought to have been under a single stroke.

The majority in Congress must be very dull if they cannot hear the growing stomachs of people demanding ratification of the agreement with Canada as a prelude to demand for reformation.

It is foolish to expect a good thing when offered by an enemy. For this reason the Democracy will cheerfully accept the ratification of the agreement with Canada as a prelude to demand for reformation.

EDITOR KEPT FROM PRISON BY TAFT

(New York World)

President Taft has commuted the sentence of Fred D. Warren, socialist editor of the Appeal to Reason, who was sentenced to six months imprisonment and fined \$1,500 for sending libelous matter through the mails.

As commuted, the sentence for imprisonment is eliminated and the fine reduced to \$500, to be collected by civil process only.

Warren was convicted of technical violation of a seldom used federal law prohibiting any one from mailing letters with matter printed on the envelope "tending to reflect unfavorably upon the character or conduct of another."

Warren printed on his envelopes an offer of a reward of \$1,000 to any one who would kidnap ex-Governor Taylor of Kentucky, then a refugee in Indiana, and take him back to his own state in which he was wanted for complicity in the murder of Gov. Geesbol.

Daddy's Bedtime Story How the Poor Family Was Saved

ONE winter morning Jack and Evelyn awoke to find that in the night it had snowed heavily and the snow had drifted until it came up nearly to the window of the dining room of their house. They had a splendid time that day playing in the snow, and in the evening they asked Daddy to tell them a "snow story." After thinking a short time daddy began:

"Once upon a time in a country far away across the ocean there was a great war. There had been much fighting between two armies, and the people in the country thereabouts, especially the poor folks, were in great terror. They had good cause to be afraid, for the soldiers of their own country had been beaten by the enemy, and the other army was marching through the country, burning every house which they could find unprotected."

"It was in the winter, and a bitter cold winter it was. You may imagine how much suffering was caused by the turning out of the poor folks into the ice and snow. To one poor family especially the war was a terrible thing, for the oldest son was away fighting. There were five persons in the family—an old grandmother, the parents and two little children. One night it began to snow heavily, and the poor family were sitting in their hut, shivering from the cold and from the fear that the enemy's soldiers might come and burn their hut. They did not dare to strike a light or make a fire for fear the soldiers would see the light and find their house."

"As this poor family sat and shivered they prayed that the enemy might not find their little home. The old grandmother took down her hymn book and began to read. In it she saw a hymn, 'Build a Wall About Us.'"

"Oh, if there could only arise a great wall around us to protect us!" she said.

"We can only hope," said the father, and so they passed the night in fear and trembling.

"Not a single soldier came to the farmhouse during the night, although all around them many houses were burned by the bad men. In the morning they knew the reason why. The house lay in a hollow, and the heavy snow, drifting against it, had hidden it so well that the enemy's army had passed by without seeing it. 'You see,' said the old grandmother, 'a wall of snow was really built around us to protect us from the enemy. Now, if my dear grandson would only come home!'"

"In a few days they heard that another great battle had been fought and the bad men had been forced to leave the country. The young man had not been hurt in the battle and came home soon afterward."

WHY I LOST MY JOB

Reasons Why Thousands Like Me Cannot Satisfy Their Employers.

"I believe my fate is not unlike that of thousands of other workers who daily lose their jobs for reasons they do not know, and probably would not believe. When their last pay envelope comes along, it is usually 'Your services no longer required.' If the truth were known, the reason for their unceremonious removal would probably be that their usefulness was destroyed because of some mental worry, bodily ailment or general indisposition. These things, as we all know, are the most fruitful causes of failure in all walks of life. The battle of Waterloo was lost because of a headache. In this quick age our minds must be clear, rapid, active and free from outside influence or worry, or else we go down to failure with the throng of 'floaters' who go from one place of employment to another, giving no satisfaction to others or to themselves, constantly growing older and less useful, with no ambition, no will power, and no hope."

Every man requires from every other man the best that is in him. But no man can use or set the best that is in himself until he is first free from all fretful indispositions and worries.

That was my trouble. I lost my job. My stomach in the first place was always out of order, and I was worrying about it and my mind grew cloudy, and slow. I made mistakes, and grew grouchy. That was the end. There are thousands like me, going about with 'quick lunch' faces, dyspeptic manners, and repulsive atmospheres. No employer wants such men's services.

Take my advice. A healthy stomach is half the battle, for it keeps your mind clear, and your face rosy. I have a healthy stomach now, and hold a good position, and my employer is satisfied and so am I.

I started to take Stuart's Dyspepsia Tablets which I was told were good for the worst cases of indigestion and dyspepsia. The first two tablets made a wonderful difference in my condition.

One ingredient of Stuart's Dyspepsia Tablets digests 3,000 grains of food. The stomach doesn't have to work at all. The Tablets do all the work, no matter how heavy your meal.

Stuart's Dyspepsia Tablets cure brash, eruptions, burning sensations, bloating, irritations, loss of appetite, nausea, heartburn, lack of energy, loss of memory and dyspepsia and indigestion in the worst forms.

No other little tablets in the world can do so much. You should carry them around with you wherever you go and take them regularly after meals. Then they will realize what it is to be freed from stomach torment, and have a clear mind, a quick memory, a happy disposition, comfort and rest. Give Stuart's Dyspepsia Tablets at any drug store for 50c a package. Send us your name and address today and we will at once send you by mail a sample package, free. Address F. A. Fifty Years Ago Today.

Feb. 3.

The wave of popular excitement over the secession crisis reached its height. This day was the eve of two conventions, that of the seceded states and of the peace movement. General Dix's "shoot him on the spot" order was published and also the ultimatum of South Carolina that Fort Sumter would be taken by force unless the United States would surrender it peacefully.

GOV. HARMON

Sixty-five Years Old Today and Celebrates Occasion by Day of Hard Work.

Columbus, Feb. 3.—Governor Harmon was 65 years old today and to escape the Friday hoodoo, spent the day hard at work in his office. He received many congratulations from friends. Most people would guess him ten years younger because of his erect carriage and solid 195 pounds.

OBITUARY

STEVEN TROST. Steven Trost, aged 57 years, died in a Columbus hospital Thursday evening. The deceased was a cousin of Mrs. Mary Miller of this city. His death resulted from a stroke of paralysis sustained several days ago. The body was brought to Newark at noon today, but the funeral arrangements have not yet been completed.

MRS. JANE H. JONES. Mrs. Jane H. Jones died at her home in Hudson avenue Feb. 2, 1911. She was born in Wales, Dec. 25, 1837, her parents being Gwen Jones and Hugh Jones of Wales. She came to America with her father and mother when only three years old and spent the first 20 years of her life in this country in Philadelphia, Pa. At the end of this time, in 1856, the family removed to Ohio, where three years later she was married to John H. Jones, who passed away Dec. 28, 1910. Of this union seven children were born, three sons and four girls, five of whom are still living. Two daughters having died, one in infancy and the other, Lizzie, four years ago. Those who survive to reverse the mother's memory are: Walter D., Pittsburgh, Pa.; Arthur W., Philadelphia, Pa.; Edward M., Plymouth, Ind.; Bertha and Ethel M. of this city.

She was a member of the old Welsh Congregational church on Fourth street, but has always been interested in the welfare of the Fifth Street Baptist church. Her life has been a quiet, retired one in a home which has been a center for the family and intimate friends, and it is only those who have known her that can appreciate her quietness and thoughtful consideration of others. Never very strong physically, she has been a sufferer for many years, but all her pains and sorrows were borne with remarkable patience and calmness. She will be missed not only by her immediate family, but by loving and appreciative neighbors.

Funeral services will be held at the home Sunday at 2 o'clock. Rev. A. A. Bennett officiating. Friends of the family are invited.

MISS ANNA NIEMATH. Anna Niemath, daughter of Mr. and Mrs. Charles Niemath, died at the home of the parents, 112 Poplar avenue, at 1:20 this morning. The deceased was aged 20 years, and her death resulted after only a short illness caused by a serious attack of the grip. She is survived by the parents, one sister, Mary Niemath, and two brothers, Charles and Richard.

The funeral services will be held in St. Francis de Sales church Sunday afternoon at 3:15 o'clock. The interment will be made in Mt. Calvary cemetery.

FUNERAL OF CHARLES RODGERS. The funeral of Charles Rodgers, who died last Thursday afternoon at his home in Andover street, will be held at the Church of the Blessed Sacrament Saturday morning at 10 o'clock. Interment in Mt. Calvary cemetery.

PATRIOTISM. The religion of patriotism may sound blasphemous to some ears, but that patriotism be less than religion is the conception which has prepared the way for the civic corruption of the last decade. We are to serve the state not only with our bodies as soldiers and policemen as voters, but as Thoreau has put it, with our consciences as citizens. Ours ought to be a religion of patriotism, for America is not a land alone nor a country nor a people, but a hope, a vision, an ideal. What nobler religion can there be than the pure love and unselfish service of the noblest, freest commonwealth the world has known?—Rabbi Stephen S. Wise.

HAD SUCCESSFUL LIBRARY SHOWER AT GRANVILLE

Many Books and Periodicals Donated by Friends—News of the Thriving College City.

Granville, Feb. 3.—The "Library Shower" and reception held at the rooms of the public library Friday afternoon was a most gratifying success. A large number of town people called and bringing donations of books, some of them very valuable. The report of the secretary, R. M. Albaugh, for the month of January shows that the library has been a far greater success than ever before. During the month 220 books were taken out and read. There were also 714 visitors, which is an increase of 123 over the preceding month. Of this number 52 were men and 141 women, 180 boys and 24 girls. The Newark Advocate and the Granville Times have been donated by the publishers and the Ohio State Journal by a friend. This is a very good showing.

IS ANYTHING LACKING?

What a Columbus Man Says About the Curative Waters of the Isle of Pines.

Newark lovers of the Isle of Pines have been so much impressed with telling their friends of the better climate, the natural beauty and the wonderful productivity of this new country that they have been looking for one thing that is lacking in as much time for the island as its choicest fruits. This is the remarkable curative properties of the water. These mineral springs on the island. These waters, it is said, are of such quality which promise to be of great value as the world's most famous German Spas.

H. S. Bell, a prominent business man of Columbus, Ohio, who has visited the Isle of Pines, has written to his friends that he went to the island to see if he could find a cure for his chronic rheumatism, which had been almost helpless and suffering with a serious kidney trouble. He has come back entirely cured and is now class advertising the water of the Pines.

These springs, which are located so famous are less than five miles from the Ohio Colony, and are so near Newark people are able to visit. The water on the island is of a wonderful purity and healthy. The waters of all the world's springs are not so good. The Ohio Colony are in such a beautiful water and as pure as a dew drop.

SHOWED EFFECT OF SCIENTIFIC FEEDING

The State Agricultural Station at Wooster has apparently proved its theory that if hogs were fed certain foods, which would produce bigger gains, they would become better manured, more cleanly, and would produce better pork than the ordinary swine. The experiment was started a year ago last fall with forty sows, plus which were placed on special food made from selected grains.

Some months after this treatment, and cleanly life, when let loose from the pen, these pigs showed their breeding by not associating with all the common hogs on the station farm.

Unfortunately for the hogs, however, there was no way of telling how much brains the brain food had developed in them without a post-mortem examination, so they were killed as a sacrifice to science.

Their meat has been pronounced by experts to be the most succulent and tender ever seen, and their carcasses will be sold at a big advance over the regular market price of pork.

A BUSINESS WOMAN

Who Was Cured by Following a Neighbor's Advice Now Recommends the Same Treatment to Other Women.

Most women are subject to special forms of weakness and at one time or another need a safe reliable tonic for the blood.

Dr. Williams' Pink Pills are an ideal tonic for women as they are also useful in numerous diseases due to the fact that ladies are often deficient in another is due to the common popularity of this tonic.

Mrs. Mary E. Adams, of Cleveland, Ind. is well known because she was formerly editor of the "Great City Record" and now conducts a printing office.

"Some time ago," she says, "I was suffering greatly from weakness. I was sick for three years and was up and down for a long year. My strength was in a last condition and I lost my food and sleep. I was very nervous and could not sleep. I was very tired and had a severe case of spinal trouble and had never been cured of it. I had heard of Dr. Williams' Pink Pills and I thought I would try them. I took them for a few days and I felt better. I took them for a month and I was cured. They gave me strength and I was able to do my work. I am now a healthy woman and I recommend them to all women who are suffering from weakness." Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Co., Scientifically, N. Y.

DODGING THE LAW

By M. QUAD

Copyright, 1910, by Associated Lit-
erary Press.

Josephus Henderson was a man of forty when a startling event took place in his life. He was also a widower. He was exactly five feet high and weighed 110 pounds. These figures will convince you that Josephus was not numbered among the mighty men of earth. He had tried various ways of making a living, and in pursuing them he had got the reputation of being kept. He had at last turned peddler and was driving a horse and wagon around the country with dry goods, notions, groceries and tinware. That's the way he came to meet the widow Sopher, who lived on a farm.

The widow had passed forty. She was large and bony and strong. She was not handsome. The only thing on earth she feared was the law. She had once been arrested for kicking a man and had spent ten days in jail. The sheriff had made her stay as pleasant as possible, but she had never recovered from the shock.

Peddlers are a jovial lot, and so are widows, and in time these two came to call each other Josh and Sally. Things would have gone no further but for the little man's keenness. He never made a sale to the widow without cheating her, and one day when he heard that she had come into possession of \$5,000 in cash through the death of a brother Josephus saw his way clear for the future. That money would set up a store in the village, and he would become a thriving merchant.

Josephus went courting. He found the widow behind the plow in a field. As he courted she plowed. He had no objections, as time was money to both of them. Josephus confessed that he had entertained a sneaking affection for the widow since his first call, and though she didn't say much, she seemed pleased.

Josephus was told to call two weeks later, but at the end of nine days he was back again. He said it was his beating heart that fetched him. He had cut the time down, but the widow was ready for him. Several days previous she had gone to the village and paid a lawyer \$5 to answer the question: "Can the law trouble a wife who licks her husband?"

And his answer had been: "Not if you do not lick him too hard. There is neither assault nor battery in what may be called a moderate licking. Don't break any bones and don't seriously injure his eyes."

"I have been thinking," said the widow to Josephus: "I have been thinking and wondering if you loved me."

"Heavens, can you doubt it?" he exclaimed. "And you will always love me?" "Forever and forever!" "Then we'll say two months hence." "One month—a week—a day!"

Josephus knew of a store to rent in the village, and he wanted that \$5,000. The widow insisted that she must have two weeks at the very shortest, and a date was settled on. The marriage was to be private and he celebrated in her home. In due time the happy day came round—a preacher and two witnesses and the deed was done. An hour later, as the happy couple were left alone, the widow changed her dress, rolled up her sleeves and brought out a new horsewhip bought for the occasion.

"What's up?" asked the wondering Josephus.

"Take off your coat and stand out." "For what, love? I want to talk with you about opening a store in town."

"Plenty of time for that, Josephus. The first sale you made to me was five yards of roller towel. You beat me on the price and on the measure. I'm going to tan your jacket for it!"

"But, love!" She took him by the collar and laid on the whip till he howled. A woman who could twist a plow around in clay soil could handle the little Josephus.

"The second sale," continued the wife as she rested, "was five tin pans. Four of them leaked, and you beat me out of 10 cents beside. Here is licking No. 2."

"But I am your dear husband!" he protested as he squirmed about.

"And that's why I can lick you and dodge the law. Here goes!" Josephus' hide was tickled again. He attempted to fight, but was taken by the hair and his head banged against the wall till he grew quiet. When the performance was over and the wife had got her breath she said:

"You sold me ten yards of calico for a dress and warranted it to wash. It was three-quarters of a yard short on the measure and the colors ran into each other. Josephus, some more horsewhipping!"

"I'll have you arrested for this!" "You can't. That's what I paid \$5 to make sure of. Come to time!"

And Josephus was liked for selling short weight groceries, and for charging 50 cents too much for a pair of shoes, and for selling black stockings that croaked, and when he had got his last stroke the wife said:

"Josephus, darling, it was a cousin of mine that got the \$5,000, but you've got me, and here we dwell, and you do the farm work and do it well, or you'll get some more of this! The mercantile business is not for us, dear. What we want is the free air of the country, with honest prices and good measure thrown in!"

BOYS SUNDAY SPECIAL

A fine series of new illustrated talks for boys has been arranged at the Y. M. C. A. These lantern views will be used in addition to the motion picture films each Sunday at 2 o'clock. While it is necessary to exclude boys under ten years of age the hall is sure to be well filled with a lively bunch of Newark youth from ten to sixteen years old. The meetings are not in the least denominational, but are such as to strengthen every boy in the purpose to live a clean life and to do the right thing.

Rev. J. A. Bennett, who has for three years spoken to the boys, is always fresh and interesting. The subjects are Sunday, February 5, "Hearing and Earing"; Feb. 12, "Glimpses of Galilee"; Feb. 19, "The Temple of God"; Feb. 26, "Dreams and Duties"; March 5, "Crucibles of Character"; March 12, "The Shadow of the Cross"; March 19, "Fold and Flock"; March 26, "Thinking and Turning."

Boys in the seventh and eighth grades of school, high school boys and employed boys, 14 to 16 years old, all ought to hear these talks.

STILLS WILDCAT WITH BARE HANDS

Greenburg, Feb. 3.—A wildcat sprang upon Harmon Kalp, a farmer, near Jones Mills, as he was walking through the mountains to his home yesterday evening, and would have killed him had not Kalp thrown the animal into submission and choked it from him. His face, arms and head were terribly lacerated.

Kalp had no weapons and when the animal, spitting and howling, its green eyes and its long white fangs close to his face, was sinking its claws into the flesh of his chest and arms, he had to fight or die. As he choked and pulled at the giant feline's body the cat's hind claws tore deep into the flesh of his arms. Overpowered, the wildcat, growling, slunk away into the darkness. His clothing soaked with blood and weak from the encounter, Kalp went to the home of his brother, where he was given attention.

Constipated all His Life Now Cured—Trial Free

One of the most harrassing of troubles, though fortunately not fatal, is constipation, and millions of people suffer with it from infancy to old age. Its cause may be traced to any one of a dozen different circumstances of diet, environment and even birth.

Millions are practically born with constipation. Had they used intelligent methods at the beginning perhaps they would have found relief, but they had the usual misfortune of bad advice. They tried dieting, stewed fruits, then laxative waters, then pills and various other cathartics, and so in the end made matters worse. But there is still hope, even for the seemingly hopeless.

Have you ever tried Dr. Caldwell's Syrup Pepsin? It has been on the market for many years and is as staple in the households of those who know its value as salt and sugar. It is a liquid laxative- tonic that you can buy of any druggist at fifty cents or one

dollar a bottle, the latter being the family size. But if you prefer to learn its value personally before buying, then send your name and address to Dr. Caldwell and he will promptly send you a free sample.
It is without doubt the best laxative for constipation that you can find, and in every way the best remedy for that and headaches due to constipation, indigestion or dyspepsia, heartburn, drowsiness after eating, gas on the stomach, biliousness and similar troubles. It is a mild, gentle remedy free from gripping and bad taste. Children take to it readily. It is a staple in the homes of Mr. George W. Zimmerman, of 1217 N. 24th St., Harrisburg, Pa.; Robert Atkinson, Sr., of Cuba, Ill.; and thousands of others.
Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. V. B. Caldwell, 511 Caldwell Building, Monticello, Ill.

AMERICA IN MANCHURIA.

One of the most important chapters in modern history is the record of America's diplomatic fight for the open door and equality of trade in Eastern Asia. The history of "How America Got into Manchuria," and the extraordinary results, have been described by the February Century by Frederic M. 4. Ready Money. You can have your money at any time. Notice to withdraw can be given at any time. Our prudent and conservative methods prevent such requirements. To get money on mortgage owned by your-officers be almost impossible. If you should need it quickly. Not so with our certificates. Herein they are most desirable. Assets over \$1,000,000.

It is a good thing to have your money in a safe place. The 5 per cent bonds are being sold at 84 together with a bonus of 10 per cent of the stock of the company. The estimates of the engineers who have gone over the property are that the company will earn well over its bond interest the first year of its operation to Johnstown. It is hoped that the company will be able to pay off its bonds in a few years.

CLOSING SERVICE AT FIRST PRESBYTERIAN

Tonight closes the most helpful and profitable series of services held in the First Presbyterian church for a long time. Rev. E. A. Cully will give his last sermon of this series tonight, and of those which have preceded are any indication tonight's service will be well worth attending. Miss Wood will sing tonight.

Says Normal School Bill is Sure to Pass

A bill that is said to be sure to pass in the legislature this winter is the one appropriating \$50,000 for each of the state's new normal schools, one to be located at Kent and the other at Bowling Green.

The bill provided for the establishment of institutions passed last winter was so worded that Governor Harmon cannot appoint the board of trustees until after the legislature has made initial appropriations to start the work.

Members of the house finance committee almost gasped this week when Professor F. A. Merrill of Ravenna, stated that Ohio was about 40 years behind many other larger states in the matter of state normals.

TAFT HOPEFUL OF LEGISLATION

President Optimistic Regarding Measures Before Congress.

ON MAKING OF PRESIDENTS.

National Lawmakers Are Usually Opposed to the Man Who Wins in Convention—The Opening of the Panama Canal Likely to Be Pictured in Frieze of Capitol Dome.

By ARTHUR W. DUNN.

Washington, Feb. 3. — [Special.] — President Taft is still optimistic regarding the legislative program, especially so far as it relates to the measures he wants to have passed. And he may get more than seems possible at this time, for congress can work rapidly when it determines to use speed.

In every short session where an attempt is made to rush business very much crude legislation is passed which needs correction later. That will not doubt happen during the present congress if it is finally decided to crowd through many measures.

Congress and Making Presidents.

The friends of Governor Harmon are not very much disturbed because the mention of his name in the Democratic caucus in connection with the presidency did not evoke a hearty response. Nor are keen observers who are friends of Champ Clark unduly elated because he was hailed as the next president as well as the next speaker and received a great ovation. All shrewd observers know that congress does not make presidents.

Going back to the days of Blaine it is found that Republican congressmen were nearly always for the losing man in the national conventions. The Democratic congressmen were not for Cleveland either time he was nominated save in 1888, when there was no opposition to him. The same was true of Bryan. Democratic congressmen were for Parker, who was beaten before the convention which nominated him adjourned.

Republican congressmen were for Tom Reed in 1896, and McKinley was nominated before the convention assembled. Congress was for the field in 1908, when Taft won easily.

While it is possible that Champ Clark may get the nomination in 1912, no one has become convinced of it because the Democratic caucus of congressmen cheered his name in that convention.

Hill Cooked His Figures.

Congressman Hill of Connecticut was making a short speech on the tariff, and half a dozen Democrats were on his back hurling questions at him. As usual, Hill was firing off a volley of figures, those figures which Champ Clark has learned to respect and which he leaves alone.

"Oh, you cooked up those figures," interjected Congressman Burleson of Texas.

"I did cook them up, and they are well cooked," was Hill's emphatic response.

But no one would question a set of figures which Hill puts forth, as he is the best statistician in the house.

Can Complete the Frieze.

For years the frieze around the inside of the dome of the capitol has been incomplete. Fifty years ago, when it was painted, the principal events of American history were depicted, from the landing of Columbus to the discovery of gold in California. Then the civil war interrupted the work, and there could be no agreement as to what to put in the blank space. Anything pertaining to the civil war would be offensive to a large body of citizens. The suggestion that a picture of Cleveland opening the world's fair 40 years after Columbus landed was rejected because a lot of men did not like Cleveland.

Now it is proposed to complete the frieze with a picture of the opening of the Panama canal. As Columbus was searching for the route to the east by the way of the west when he discovered America it is considered appropriate that the opening of a water route to the east should fill that last space of the famous frieze.

Sullivan's Plea Won.

Big Cy Sullivan made a plea for more money for the mail carrier on Lake Winapeesaukee and won. Hereafter the mail carrier, as the legislature states, "who furnishes his own power boat for mail service during the summer months" is to be given \$500 a year. Sullivan told the house how that mail carrier supplied the business men who in summer came to New Hampshire and lived upon the beautiful Winapeesaukee.

In describing this spot he had Claude Melnotte's description of his boathouse run on Lake Como faded, and by the time he concluded there was not a man in the house who would have been Philistine enough to oppose the increase of the pay for the mail carrier.

Meyer May Advance.

If there should be a change in the cabinet it is quite likely that Secretary Meyer, now in the navy department, will be made secretary of the treasury. Secretary MacVeagh has not been in the best of health, and he has accomplished about all that was possible in remodeling the treasury and in improving business methods. Meyer has a bent for finance and figures and would like to go into the treasury if MacVeagh should retire.

Sale of Zion Laces

Over 10,000 yards of Zion City Laces are on sale today in our early spring display of Laces and Embroideries.

Some are 5c, some 10c, others 15c, 20c and 25c. Edges and Insertions to match in all these prices and we invite you to see the Zion Lace display as well as to look over the various values on sale. Come in Saturday.

ZION LACE INDUSTRIES, ZION CITY, ILLINOIS

ZION LACES and many interesting features in their manufacture are on exhibition in one of our show windows. This display is educational and every person should see it.

From 3,400 to 4,500 bobbins are required to thread one lace machine, besides the beam and warp, making a total—when the machine is threaded—of 13,000 threads in actual work. When a machine is fully threaded there are 6,700 miles of cotton on it, enough to reach from here to England and nearly back again.

See the illustrations of the various machines in operation—where they take in the thread and turn out the dainty, attractive laces—also skeins of yarns, yarn spools—pieces of lace just as they come from the machines. Especially interesting is the process of clipping, scalloping and separating. The exhibit is so unique and the values so unusual that a visit will be of material interest to you.
